"Construction, Industry, Energy of Turkmenistan" International Conference & EXPO

3-5 November 2024, Ashgabat, Turkmenistan

Venue: Chamber of Commerce and Industry of Turkmenistan

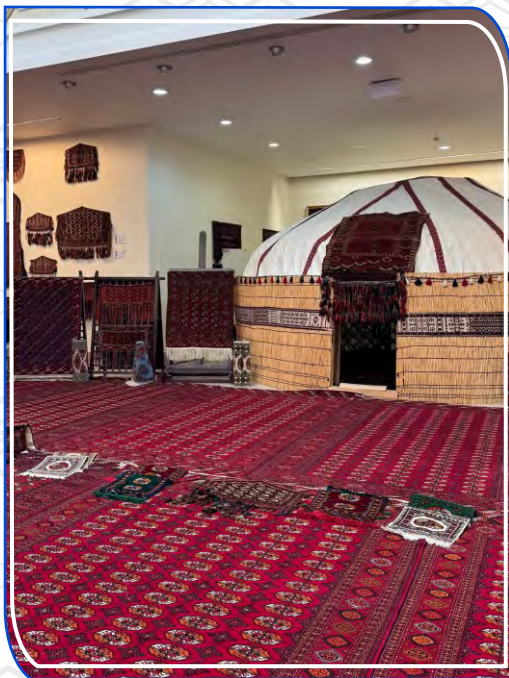

The International Conference "Construction, Industry, Energy of Turkmenistan" (CIET-2024) was a landmark event that played a pivotal role in advancing the development of the construction, industry, and energy sectors in Turkmenistan and its neighboring countries. Held in Ashgabat from November 3-5, 2024, the conference served as a dynamic platform for promoting innovation and investment across these countries. Organized by the leading ministries of Turkmenistan—including the Ministry of Industry and Construction Production, Ministry of Construction and Architecture, the Ministry of Energy, the State Concern «Turkmenhimiya», the State Agency for Management of Road Construction, and the Chamber of Commerce and Industry of Turkmenistan—along with the Ashgabat City Municipality.

The conference's main objective was to enhance regional cooperation in the energy and construction industries, foster opportunities for the creation of free industrial zones, and strengthen international partnerships between Turkmen government entities, financial institutions, and global organizations specializing in construction and industry. The busy agenda of CIET-2024, in addition to the conference, includes the signing of numerous memorandums and contracts, alongside seminars and roundtable discussions. Domestic and international experts shared their insights on a wide array of topics, including trade, industrial zones, e-commerce, concessions, road transport infrastructure management, leasing, and lending. CIET-2024 attracted an unprecedented number of participants, including representatives from government ministries, national construction agencies, industry associations, research and development organizations, international construction companies and educational institutions.

Туркменистан готовится принять CIET-2024

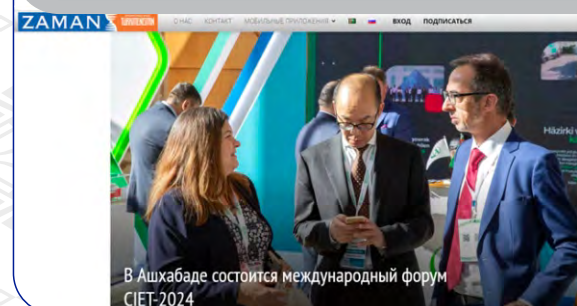

В Ашгабаде уже сейчас активно готовится к проведению Международной конференции и выставки «Строительство, промышленность и энергетика Туркменистана» (CIET-2024), которая состоится в следующем месяце, с 3 по 5 ноября 2024 года. Об этом корреспонденту SNG.Today сообщили в пресс-службе организаторов.

CIET-2024 нацелен на комплексное привлечение иностранных инвестиций в строительный, промышленный и энергетический сектора национальной экономики, многократное освоение экономического потенциала отечественных производственных сил страны, интеграцию и укрепление сотрудничества между государствами региона, а также налаживание результативных взаимоотношений с компаниями и международными организациями. Ожидается, что в рамках предстоящей конференции будут обсуждены насущные вопросы ускорения монетизации и диверсификации энергетических ресурсов, современные тенденции в архитектуре и градостроительстве, потенциал умного города Ашгабад, производство качественных строительных материалов и финансирование новых инфраструктурных проектов, роль государственно-частного взаимодействия в развитии строительства и промышленности.

Кроме того, на полях конференции делегаты из десятков стран мира рассмотрят перспективные проекты, реализации которых позволят вывести экономическое развитие Туркменистана на качественно новый уровень. Речь также пойдет о выводах и перспективах, а также роли технологических инноваций и человеческого капитала в промышленности, строительстве и энергетике.

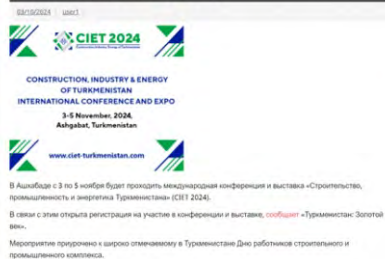

В рамках конференции также пройдут круглые столы, семинары, в ходе которых национальные и иностранные
